Number 30

Helena, Montana, Is Rocked By Earthquake

Million Dollar Damage

Helena, Montana, was visited by a rather severe earthquake Friday night, which lasted for 12 seconds, centering in the Continental divide and spreading into Washington and Idaho, and north into Southern Alberta and British Columbia. Damage was estimated at \$1,000,000 in Helena with two dead.

Dishes rattled in cupboards, pavements heaved, and brick buildings particularly, loosened by the quake came tumbling into the streets. The tremor reached its height just before ten p.m. and National Guardsmen were called out to guard business houses and residences damaged by the quake. The shaking was felt mildly in Raymond a great many people feeling the movement of the quake for a second or two here, apparently being on the edge of it.

Tremors occurred Saturday at intervals, and a number more were felt Sunday. Many people who had returned to their homes Saturday fled again to the streets Sunday when the tremors continued, and the storm and cold weather added greatly to the suffering and privation, and the Red Cross and other relief agencies were bending over effort to cope with the situation.

323 distinct and separate tremors had been recorded during the four or five day disturbance, but Friday's damage resulted as the disturbance reached its height. Since then the tremors have been decreasing in velocity.

NEWS NOTES

Because of the holiday on Thursday, stores and offices remained open all day Wednesday.

Parley Meldrum is convalescing at home now, after spending fifteen days in the Lethbridge Hospital. We are glad to know he is getting along so well.

S. Bayford, principal of the school at Lang, Sask., bagged five geese with one shot Saturday. We are not so Scotch if we could get one goose with five shots, we would feel pretty lucky.

Arthur Henderson, member of the British Parliament, and one of the world's leading advocates for peace, passed away in London Sunday night in his 73rd year.

300 Italian volunteers sailed from New York Saturday to join Mussolini's army. Some of them were from Canada, and a crowd of 4,000 people bade them farewell at the dock.

It is announced that Premier King will announce his new Cabinet over the weekend. There are many guesses as to who will compose this august body.

The home of Mr. and Mrs. Ted Gouby was the scene of a sumptuous supper served to a number of invited guests Friday evening in honor of the coming marriage of their daughter Melva. A very enjoyable evening is reported.

President H. S. Allen and Elder A. E. Hancock were the speakers at the 2nd Ward Sacrament meeting. Musical numbers by Oliver McLean and sons and a solo by Miss Wyora Hawkins, also a reading by Mrs. Ruth Evans completed a very enjoyable program.

TAYLOR STAKE MONTH AT ALBERTA TEMPLE

Four groups from the Taylor Stake have excursions to the Temple planned for the month of November. They are as follows, and those interested will please take notice:

RELIEF SOCIETIES—First week of the month, November 6th and 7th.

2nd WARD ELDERS QUORUM—Second week of month, November 13th and 14th.

STAKE PRIMARY—Third week, November 20th and 21st.

MUTUALS OF THE WARDS and **STAKE**—Fourth week, November 27th and 28th.

Get in touch with your ward officials regarding these excursions. The Stake Genealogical Committee are desirous that good attendances be present each week.

FAY WALKER HEADS ATHLETICS

(Special to the Recorder)

Provo Utah; October 10 — The Canadian Club of Brigham Young University held its first meeting of the season last evening. Of the 38 students from Canada attending this Mormon University in Utah 26 were present. Several patriotic songs of Canada were sung after which officers for the coming year were elected. Walter Pitcher of Cardston was elected president with Harold Laycock of Lethbridge vice-president, Alice Briggs Magrath secretary-treasurer, William Forsyth, Cardston reporter, and Fay Walker Raymond athletic manager.

Those at the University from Raymond and district are Earl Bascom Brandon Smith, Guy Alexandra, Mary Knight, Fay Walker, Leonard Watson, Helen and Marie Brandley Eunice Hardy, Grant Larson, Tom and Victor Bullock, Paul Johnson Zella Peterson and Melba Henderson.

NEWS NOTES

D. W. McCord, Calgary representative of the Remington Typewriter Co was a Raymond visitor on Saturday.

Wm Lowden, representative of the Tip Top Tailors, was at the Broadway Store Tuesday, and measured up a number of new suits.

Hoaglin was busy this week painting a new sign on the north side of the Broadway Store.

Earl Peterson, Texaco Agent of Cardston, was in Raymond Tuesday with a truck load of gas.

Have your dollar ready for the Athletic Association membership drive. The boys will soon be after you.

Milton and Joe Strong have the foundation completed and part of the frame up for an addition to the home of Mr. and Mrs. Joe Strong.

Due to the storm, the Christensen boys were home from Picture Butte and their gravel hauling for a couple of days this week.

A terrific gale over the Atlantic shipping lanes Saturday wrecked the 5,735 ton freighter Verdulia, and it is feared cost the lives of her crew of 37. Or Monday rescue ships gave up the search after they could find nothing of either ship or men.

Lloyd McPhee Heads Athletic Association Drive Starts for 350 Members

The Town Hall was filled to the doors Monday night for the Annual Meeting of the Raymond A.A.A. there being fifty interested sports and boosters out to hear the Annual Reports and join in the election of officers for the coming year. The President Rayo Woolf was in the Chair, and J. O. Hicken the Secretary was there with his reports.

The Financial statement for last year was read and discussed. This showed the Association to have had a very busy year, and very successful both in accomplishments and in finances. There was a balance on the right side of the ledger, which though not large, showed good business on the part of the Executive, and was an encouraging feature of the meeting. After discussion this report was accepted.

Rayo Woolf then gave a brief report of the work of the Association during the past year which covered the winnings of the Jacks and Idles Provincial competition, the Gym classes conducted by the Association and the Rotary Club, the badminton, baseball, track events and other lines in which the Association had functioned and which showed a busy year indeed.

John O'Brien had attended the Annual meeting of the Association in Calgary and gave a comprehensive report of this gathering, especially as it related to Basketball for the coming year, and explained the new system of training and selecting Basketball referees, which will be put into operation this coming season.

These reports were all accepted by vote after a discussion of them.

The election of officers for the coming year was the next item of business.

Dr. Leech was re-elected as Honorary President by acclamation.

Rayo Woolf was nominated for President, but declined, feeling that he was entitled to a rest from this job as he had been in a long while and had responsibilities this winter that would keep him from giving the time the position needed.

Lloyd McPhee was elected President.

Ernest Nilsson was chosen as Vice-President. These two were nominated for President, and the meeting voted to make Mr. President and the other the next ranking Executive.

J. O. Hicken was nominated for Secretary, but declined owing to the press of other work, and Shirley King was elected to this position. These men with the Managers and Coaches who will be chosen will form the Executive of the Association.

A discussion followed regarding the obtaining of a Coach for the coming winter to Coach all the Basketball teams in the town also to handle the physical training work, and if he would stay, to coach and organize summer sports next season. After considerable discussion a motion was passed that the matter be left to the Executive to decide upon.

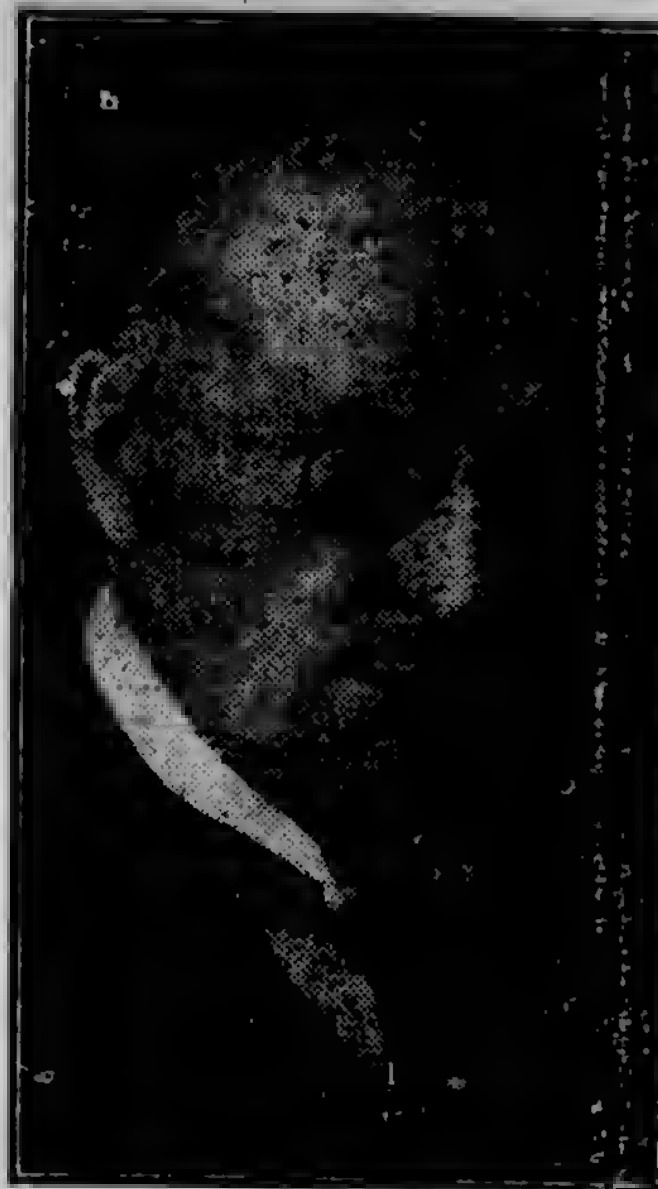

Last year's constitution was re-adopted, the membership fee for the coming year was set at \$1.00 as it was last year.

Ernest Nilsson was made the Chairman of the Membership Drive with John O'Brien, J. V. Heggie and C. A. Layne to assist, and they set their mark for 250 Adult and 100 junior members, and they are going out after it.

A hearty vote of thanks was tendered the retiring executive for their untiring and effective labors, and the meeting adjourned at 10:30 p.m.

H. Ostlund Addresses Raymond Rotarians

Bennett Government Resigns --- King Sworn In

HON. R. B. BENNETT

Who with his Government tendered their resignation as administrators of Canada's affairs last Wednesday.

On Monday last, Premier Bennett and ten of his Cabinet ministers held a short meeting in the Parliament buildings after which they met Acting Governor-General Sir Lyman P. Duff, and tendered their resignations as the active government of Canada. The resignation was not immediately accepted.

The Hon. MacKenzie King has been sworn in as Premier and as soon as he succeeds in getting his Cabinet selected, and assures the Governor-General's representative that he is able to form a Government, he will take the oath of office along with his Cabinet Ministers, and Canada will be under Liberal rule.

This procedure is followed in order that the country is not left without a government, and as one government steps out its successor immediately steps in, and the work goes on.

2,000 DAMAGE BY WIND IN BELLEVUE

Bellevue was visited by a terrific gale Friday morning last and damage estimated at \$2,000 was left as a reminder to the citizens of the Past town, 160 panes of glass were blown out of the school building, the roof blown off and of the glass blown out of the Royal Bank building, and not a building on the south side of the Main Street escaped damage from broken glass.

A truck from Blairmore was driving along the Main Street when the roof of the bank landed in the street just ahead of it. It was fortunate, according to reports that children were not on their way to school at that particular time or it is likely there would have been some deaths.

Apparently this wind storm was worse, and did more damage than the one we had some two years ago here.

"Oj for the Lamps of China" with all star cast at the Capitol Saturday night. Be sure and see it.

See the LOUIS-BAER Fight Pictures, at the Capitol next Saturday week. Also "THE MYSTERY WOMAN."

Duck Supper Is Served

Raymond Rotarians met in their regular meeting Monday night, and feasted on a duck supper, the birds being supplied by A. H. Zabriskie and other Rotarians, and cooked and prepared by the Ladies Aid who do the catering. To say it was enjoyed is putting it mildly, judging by the recalls for servings on the part of the gang who have such healthy appetites.

The business of the meeting commenced with the introduction of two new members, S. B. Card being introduced by A. H. Zabriskie, and T. K. Roberts by H. F. Allen. Vice-President J. O. Hicken gave the charge to these members, and they were accepted into fellowship in the Club.

A discussion regarding the Gym classes was had, and T. Geo. Wood was asked to take the initiative in getting this going, and to work with the Association in this respect.

T. K. Roberts sang the solo in "Carry Me Back to Old Virginia," the rest of the Rotes joining in the Chorus.

The guest speaker of the evening was H. Ostlund, K.C., of Lethbridge, Past Governor of the Lions, District No. 37, who gave a very interesting and comprehensive talk on his recent trip to Mexico.

Mr. Ostlund mentioned particularly the primitive practices of the Indians in Mexico, who today farm mountainsides, where they have grown corn, maize, etc., for hundreds of years and so steep in places that they let themselves down the mountainside with long ropes and with a sharp stick, make a small hole in the ground where they plant the seed from a bag tied at their side, climb back up the mountain, and leave their crop till harvest time, and then the harvest is in the same manner. Some of these people have never been 40 miles away from home and probably never will be. Some have never seen an automobile, and most of them had not seen one before 1930 when the highway was cut through that part of the country.

Many cathedrals had been visited, and he was astonished at the value of the beautiful decorations in these buildings, running into the millions of dollars worth of gold and silver. These edifices were open twenty-four hours a day for worship, and yet during all the years of internal trouble and strife, not in a single instance had the costly decorations of these cathedrals been disturbed, so sincere were the people in their respect of holy things. After visiting Mexico, he was of the opinion that the trouble between Church and State in Mexico was probably overdrawn.

The present highway winding over the mountains would be a wonderful piece of work when completed, and would take the traveller up to a height of 15,000 feet in many places. In other places, it would through the tropical jungle for miles, was all hard surfaced, and a wonderful piece of engineering. From his home in the city of Lethbridge to Mexico City was a distance of 3,455 miles, which was covered in 8 days, about one day and a half being spent along the way without any travelling being done. The talk was greatly enjoyed by everyone present.

While our snowfall measured a few inches Saturday, Blairmore and the Pass reported about three feet, with several nights since when the mercury went as low as 5 degrees below zero.

SUPPORT THE ATHLETIC ASSOCIATION

As we go to press this week, a membership drive for the Raymond Amateur Athletic Association is on. The Association has this year set its mark for 250 adult and 100 junior members and are working toward this goal.

We trust that citizens of Raymond will dig down and support the Association to the extent of a \$1.00 ticket, because of the good the sports thus fostered do the younger men and boys, even though the fruits are not always immediately apparent.

To enumerate the accomplishments of Raymond in the field of sports would probably be unnecessary, as nearly all of our readers know of this record. Year after year the famed "Union Jacks" Basketball team under the management of the Association with D. M. Powell, M. R. Woolf, Cliff Nalder, and others as Managers and Coaches have won Provincial honors, and in their exhibition tours have brought splendid advertising to us. That a town our size could produce such a team of basket tossers year after year has been a source of wonder to those with whom they compete. For the past four or five years the Idlers have conquered all opposition in the Province, and the High School team has taken the lion's share of the spotlight as well. Then, in Track and Field Events the

R.A.A.A. has always had winners in the field to bring honors to Raymond, and at the present moment Harris Walker in the Senior Class and Keith Humphries in the Junior events are possibly two of Alberta's best all round athletes.

So much for this. Last year in conjunction with the Rotary Club, the Association sponsored Gym classes where under the direction of E.E. Reithman, the young lads from 9 years up, were given physical instructions and exercises on the bars, mats, etc. Without moralizing too much, we believe everyone appreciates the fact that participation in sports makes any boy or man a better sport, and better able to play the game of life. We hope this sport education will not be lost sight of when people are canvassed for a membership in the Association.

If you have had boys, or girls either, who have been made better men or women through the varied activities of the Association, you should join. If you have any children now in the field of sports who are benefitting by the work and organization of this group, you should join, or if you ever expect to have participants in games of any kind, you owe the Association a membership, so that it will be kept intact and going strong for the time when your family needs its assistance. So there is no excuse for anyone who can possibly spare the dollar for saying "No".

Dig down folks. We want our "Union Jacks" in the Olympics at Berlin next year, and we believe we have the material to produce a team that will win the Dominion title if we have the backing to go ahead. Your membership will help the Association formulate plans and carry them out that will be to the end of accomplishing this project, with of course, the fostering of the usual winter's program of sports. The canvassers are all men

of stout hearts and good pulses, and none of them would die of heart failure if you stepped up and proffered them your dollar for membership, although it would be a great shock. However, Ern Nilsson as Chairman, John O'Brien, Cyril Layne or Vely Heggie, any of them will take your money and issue you a Membership ticket. Let's go.

BATHING FOR BEAUTY

I wonder how many people know the many different ways there are to bathe? The bath should be one of the most delightful aspects of the toilette, and certainly if we would be beautiful, we must bathe at least once a day in order to wash off all surface poisons.

The morning bath is our beauty cocktail, the evening bath can be the most soothing of sedatives.

Personally, I could not do without my cold plunge when I get up. It starts the blood circulating and imparts an invaluable feeling of well being and vigor. For some, this is too much of a shock, and so a cold shower can be substituted for the plunge. If however, you are the type that is slow to "warm up" after cold water you should take a tepid bath.

If you have a large, coarse wash cloth or a stiff brush be sure to rub the body vigorously with this to quicken circulation and scrub off the dead particles of skin that are constantly accumulating.

Few people are quite so thorough about their bathing as the Japanese. These people go through a strenuous process of scrubbing before immersion in the tub. The bather sits on a little stool in a room with a tiled floor and drainage system and proceeds to scrub the body with a little brush and soap. Many soaps and rinsings are had before the individual steps into the tub to soak in clear hot water. In this way the skin is made scrupulously clean far cleaner in fact than after an ordinary bath of washing and soaking in the same water.

To induce sleep at night take a warm bath and relax for about ten minutes in the water.

Next: Beauty Pick Up.

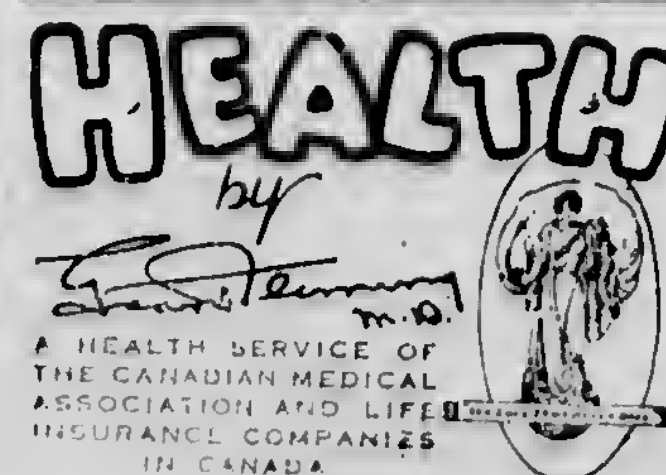

For expert advice on your beauty problems, write Women's Interest Syndicate, 126 Bloor St. W. Toronto, Ontario

Soft sales are seldom made to hard workers.

Having to remember what they said has proved to be the bane of many otherwise good liars.

Because a soldier must risk his body for a citation it does not therefore follow that politician must forfeit his honor for an election.

Help those who are stumbling betimes; but for the most part you associate largely with those who look up and talk up. They will better enable you to GET UP where you can more effectively LIFT UP.

HAEMATURIA

The appearance of blood in the urine haematuria, is never normal. It is always dangerous to ignore it. Painless haematuria is a warning signal of the greatest importance. Blood in the urine may mean a growth in the bladder.

Haematuria is not to be thought of as a haemorrhage; it merely means that there is

blood in the urine. The amount may be very little, and it may appear only once or twice and then disappear. Failure to heed such a warning is inexcusable when it is known that this may be the only sign of a dangerous condition.

It is just as true of cancer of the bladder as it is of cancer of other parts that the hope of cure lies in bringing it under treatment early in the disease. By early, we mean while the growth is still confined to one part before it has spread, while it can be removed or entirely destroyed.

We do not know the cause of cancer. As it attacks the bladder, it is much more common in men than in women. It is a fact of great importance that cancer of the bladder may be preceded by a benign, or harmless, tumor which, after months or years, for no apparent reason, may turn into a malignant or cancerous growth.

It is obvious that if the benign tumor is recognized and removed, then it cannot develop into a dangerous growth. This is a further reason why the appearance of any blood in the urine should be investigated because the benign tumor may reveal its presence by causing such bleeding.

Fortunately, cancer of the bladder do not, as a rule, spread to other parts as quickly as do certain other cancers. This is not to be taken as an excuse for delay in treatment but rather as a note of hope that prompt and proper treatment is likely to be more successful in

EXPERIMENTAL STATION, LETHBRIDGE

WEEKLY LETTER

BEEF CATTLE FINISHING

Last week your writer reviewed a few of the fundamentals of lamb feeding as gathered from the results of 18 years of lamb finishing trials conducted at this Station. As a large number of beef cattle will be going on feed during the next few weeks, an attempt will be made in this letter to present in summary form some of the results of our steer finishing trials which may be of practical value to beef cattle feeders this winter.

Trials have been conducted at this Station with all ages of steers from calves to three-year olds and at the time these trials were conducted, satisfactory results were obtained with all these classes of feeders. However, in recent years, the market demand for the heavy 2 and 3-year olds has declined very materially in favour of the lighter yearlings and calves. The majority of feeders now express a preference for the yearlings for several reasons, the principal being:

1. That ranchers prefer to sell yearlings rather than calves.
2. Yearlings are somewhat easier to feed than calves.

The finishing trials at this Station have in the majority of years been conducted with range-bred cattle showing the soggy and deep so desirable in the finished animal. Considerable care is required in starting these range-bred animals on feed, unaccustomed as they are to handling and grain feeding. For the first two or three weeks in the feed lot, the grain ration is limited to a small feed of whole oats or equal parts of oats and barley not more than two pounds per day. When all

the steers have learned to eat grain the whole grain is gradually replaced with chop. During this time, any horned cattle are dehorned as experience has shown that this practice is of very considerable assistance to ultimate success. As the steers become accustomed to grain feeding, the daily allowance is gradually increased as they will accept it, until they are on a maximum feed—usually around 10 pounds a day for the yearlings.

Trials have been conducted with a wide variety of grain feeds it has been found that any of the common farm grains will give good results when properly fed. Oats is a very satisfactory grain to use in the starting ration, but as it is inclined to promote growth rather than finish, it should gradually be replaced by such heavier feeds as barley and wheat.

To assist the beginner in estimating the amount of feed required to finish any given number of steers, the following figures obtained from the average of three trials conducted from 1927-30 with good quality range-bred yearling steers hand fed a mixture of oat and barley chop with alfalfa hay self-fed may be presented.

Number of days fed 112
Average initial weight 748 lb.
Average final weight 914 lb.
Average daily gain 1.44 lb.
Hay per 100 lbs gain 1177 lb.
Grain per 100 lbs gain 587 lb.

From these figures it may be estimated that roughly one ton of good quality hay and one-half that amount of grain should be available for each steer going into the feed lot.

A number of comparisons have been made between the self-feeding and hand-feeding of grain and the results of these trials indicate that either of these methods of feeding may

CANADIAN CLUB ON HIKE

The Canadian Club at Brigham Young University went on its annual moonlight hike on October 12. An extemporaneous program was held in an opening in the trees after a few opening songs of Canada had been sung. When the bon-fire burned down wafers and marshmallows were roasted on the embers to make up the lunch. Later to the music of a fiddle they danced Virginia Reels on the highway the cliffs towering around in the moonlight lending a romantic touch.

ANY ELEVATORS WILL HANDLE BOARD WHEAT

In addition to accepting farmers' grain for outright purchase in the usual manner every line elevator in Western Canada acts as agent for the Canadian Wheat Board in receiving, handling, making payment for and shipping Board Wheat. Ever since the formation of the Board the line elevator companies have been lending all possible assistance to the Board in their operations and have placed their grain handling organizations at the disposal of the Board. Any farmer whether he wishes to sell his grain outright or through the Canadian Wheat Board can do so at any line elevator.

The lowest temperature recorder at Lethbridge during the weekend cold snap was 17 degrees above. Blairmore reported 5 below.

be recommended. The outstanding point brought out in these comparative trials is that more grain and less hay is eaten when grain is self-fed with the result that a more rapid finish is acquired. The relative economy of self-feeding and hand feeding is therefore largely determined by the relative prices of grain and hay and by the rate of finish desired.

Salt and good clean water are essential to all animals on feed and are always readily available to steers in the finishing lots at this Station.

Here and There

Our vanishing wildernesses
have for some time elicited the
concern of conservationists, but
now science is bespeaking our
sympathy in behalf of some of
the glaciers which bid fair to
disappear within a few decades.
If scorching summers succeeded
by mild winters become the rule,
Dr. Francois E. Matthes, of the
United States Geological Survey,
fears that within another 50
years Glacier National Park, Mon-
tana, may be minus its glaciers.
Mount Rainier National Park, Wash-
ington, also has suffered from
heat prostration. At no
time within the memory of liv-
ing persons has the recession of
the ice rivers in these areas been
so rapid as during the long-pro-
tracted heat wave of 1934. Dur-
ing normal winters snowfall and
fidelity are wont to replace to a
large degree the melting snows of
summer.

Third annual competition for
the most beautiful autumn-tinted
Maple Leaf is announced by the
Canadian Government through
the Canadian Travel Bureau at
Ottawa in co-operation with the
Canadian Pacific and Canadian
National Railways. The prize
list for the 1935 competition pro-
vides for a total of \$200, of which
\$100 goes to the person sending
in the most beautiful leaf; a sec-
ond prize of \$40 and a third prize
of \$20. In addition a prize of
\$30 for the leaf with largest area,
and for second largest \$10 will be
awarded.

"Steel of Empire," the recently
published work by John Murray
Gibson, while really the story of
the Canadian Pacific Railway, has
so much of other Canadian history
that it will find a permanent
place as one of the outstanding
contributions to the records of
the Dominion. Starting with the
first known arrival on our shores,
a Chinaman, Hul Sien, in British
Columbia at the end of the fifth
century, Mr. Gibson traces the
romantic growth of the Canadian
Pacific, many centuries later, with
a wealth of incident and detail,
the author's long association with
the railway having been of the
utmost value.

Possessing one of the finest col-
lections in the world of colored
pictures of scenes in the heart of
the Rocky Mountains, T. H. Lou-
dale, of Banff, recently exhibited
them to the Women's Canadian
Club at the Hotel. The pic-
tures included scenes of moun-
tains, valleys, lakes and birds, ani-
mal and flower life.

Evangeline Booth, 65-year-old
commander-in-chief of the Salva-
tion Army, told the story of her
Army to the Men and Women's
Canadian Club at the Royal York
Hotel, Toronto, recently. "I was
born in the Salvation Army," she
said, "but it has never become a
common thing to me. It has
always been a miracle." A com-
munity audience gave her an en-
thusiastic reception.

Keen outdoor man, enthusias-
tic member and past president of
the Trail Riders of the Canadian
Rockies and a leading authority in
the matter of the Trail Riders,
J. M. Wardle, chief captain, Na-
tional Parks of Canada, has won
well-deserved promotion to the
post of deputy minister of the
Department of the Interior, Ot-
tawa.

Premier Dymally, of New Brun-
swick, was the chief speaker re-
cently when the City of Saint John
played host at a dinner in the
Admiral Beatty Hotel to New
Brunswick's guides at their 37th
annual gathering. Heavy rain
prevented a large attendance, but a
good membership under the chair-
manship of William T. Griffin, of
Bellefleur, president of the Association, enjoyed
a successful gathering.

WANT ADS.

Efforts are still being made
to prevent a declaration of war
between Italy and Ethiopia.
Britain is particularly anxious
to avoid an open break it at all
possible.

Mrs. H. Ellert and Jack Nils-
son were the lucky winners of
\$20.00 each at the Capitol Thea-
tre Thursday night. The pic-
ture "Mississippi" with W. C.
Fields in the comedy role, furn-
ished plenty of laughs for every
one.

According to press reports
there is a possibility of calm-
ing down of hostilities between
Italy and Ethiopia. This will be
welcome news to the entire
world. It may of course be just
the calm before the real storm.
It is reported that Italy is pre-
paring for a new advance.

Santiago, Cuba was demolish-
ed by a hurricane early Tues-
day, killing three persons, seri-
ously injuring 4 others, and
doing damage estimated at two
and a half million dollars. The
city's streets were lined with
debris and heavy rains prevent-
ed search for possible victims
of the storm.

Travellers who were caught
on the road in Saturday night's
storm found even the shortest
roads rather long, as snow
swirled into the windshield re-
ardless of the direction of
travel. The roads in places
were miniature lakes, and scat-
tered windshields were the lot
of everyone.

Edmonton is faced with the
possibility of closing her schools
if some relief in financial mat-
ters is not forthcoming at once
according to reports. Reduction
of teachers salaries is being
considered.

LADORE'S CANADIAN

"Weatherstrip"

HAS THE FOLLOWING BIG ADVANTAGES

EASY TO APPLY.
SAVES FUEL.
FLEXIBLE—adjusts itself
to warped windows and
doors.
PREVENTS DRAUGHTS
KEEPS OUT SAND, DUST,
SOOT, ETC
STOPS RATTLING OF
WINDOWS.

GOOD INVESTMENT —
Over several years the
cost of this weatherstrip
is insignificant when com-
pared with the saving thus
effected.

A TACK HAMMER is the
only tool required to in-
stall this weatherstrip.

WITCHES MEETING

Minutes of the Witches Un-
ion held at the Grandstand
East of Raymond Monday eve-
ning. All members present in-
cluding a goodly number of
Raymond citizens. (Those in
the know). It was the annual
meeting prior to Halloween.
Halloween was discussed led by
the witch that will be seen fly-
ing through the moon Oct. 31.
The question concerning the
ball to be held in the Second
Ward was discussed. The presid-
ent felt as though it would be
useless to ask those present to
be any place other than at the
Second Ward Hall Oct. 31 prom-
ptly at nine o'clock. "The Witch
That is Never Seen Without
Her Bats" said she felt that
some of the witches should fill
some other engagements, as it
did not seem the wisest thing
for all to go to one place. She
pleaded for support in her con-
viction. She stated that for
years the witches had met with
the Ghosts and Goblins etc.
to say nothing of the black
cats, and she felt that it was
not doing the right thing to
desert them. She had hardly
taken her seat (Witches have
manners) when the Ghost that
Howls through the Tree Tops
took the floor. He stated that
he was present from the Ghost
Union and that they had unan-
imously decided to be at the
Second Ward Hall Oct. 31. He
stated that once in a life time
such a ball takes place and they
all wished to be present. The
Black Cat that Howls on
Board Fences During the Wee
Small Hours of the Morning
reported that the Black Cat
Union was all going to be at
the second Ward Hall Thursday
Oct. 31. Just at this point of
the meeting the Owl was heard
to hoot his approval. As yet
the bats and Goblins had not
been heard from and some anxi-
ety was felt as to how they
stood on the subject. Then a
swish was heard and in flew
the Bats representative. He stat-
ed he had been delayed owing
to the facts that the bats Un-
ion had grown so much in the
past year and it took a long
time to finish their business.
He stated that they were all
unanimous in going to the Sec-
ond Ward Hall Oct. 31. The
"Witch that rides through
the Moon" called for a vote
from the Witches Union as to
where & how they would spend
Halloween. The vote was un-
animous that they go to the
Second Ward Oct. 31. So for
the first time in history the
Witches Union associated with
the Goblins and Ghosts, Black

HE'LL COME BACK

(John Edwin Price)

A few days ago a salesman
friend who calls regularly at
my place of business told me
about his former boss who failed
early in the depression. This
boss had owned a sizeable com-
pany and employed six sales-
men who called at retail stores.
My friend said that one time
he was ill for six weeks. The
boss personally canvassed his
route and personally brought
his check to him each week.
And more than that, when my
friend again reported for work
the office girl handed him a
check for extra commissions
earned by the boss on his
route. This business man, like
many others, had invested heav-
ily in stocks and went down
with the crash. When my
salesman friend expressed his
regrets and friendly sympathy
the boss replied "Well I'm no
worse off than I was when I
started."

In concluding his recital of
the incident my friend said,
"He'll get a fresh hold some-
where. He'll come back. He's
only 61."
"Only 61. He'll come back."
That the way real men are
thinking today. The remark re-
called the story of James M.
Washburne of New York. Last
spring I broadcasted the ac-
count of his starting over
again at 81 selling candy on a
street corner from a basket at
his feet within sight of a stand
for which he used to pay \$18-
000 a year rental. Of late men
of means have been attracted
to him and his new pep candy
derived from certain vegetable
ingredients. At 81 he is back in
business with plenty of financial
backing. America is a land
where just such "miracles" hap-
pen because the spirit pre-
dominates which attracts the
conditions which make them pos-
sible. I believe my friend was
right when said of his former
boss, "He'll come back."

Sir Charles Kingsford-Smith
left London Monday, hoping to
make it to Australia in three
days to prove the feasibility of
a fast air mail route from Eng-
land to Australia. This daring
flier has spanned both the At-
lantic and Pacific Oceans in his
planes at various times.

Cats, and Bats will all be
present at the Grand Ball in
the Second Ward Recreation
Hall Thursday Oct. 31.
